

COILMATE evo

Rule processing system

Highest performance all along the line – the **COILMATE** evo is setting new standards in processing steel rules

- Processes 1.5 up to 4 pt. rules
- Rule height from 12 to 60 mm (0.472 to 2,362")
- Fully automatic broaching
- Nicking module **QUICKNICK**
- Fully automatic coil changer
- Outfeed and sorting device
- Automatic calibration module **QUICKSET**
- DieMond Tools® for high durability at constant precision
- Integrated STL rule preparation software
- Compact footprint
