

ROTAMATE evo

Laser cutting system

Highly productive laser cutting system for manufacturing rotary die boards

- Rofin Sinar slab-laser source up to 3000 watt
- Working area: 3000 mm (118"), rotary diameters 177 to 800 mm (7 to 105")
- Milling unit **QUICKMILL** with 6 position tool changer
- Fast engraving head **QUICKSCAN**
- Automatic shaft height control
- Quick and user-friendly change of material
- Collision protection system Crash Protec
- Dynamic topology measuring system **QUICKTOP**
- State of the art digital drive concept
- V8[®] CNC-controller with touch screen interface
- Low energy and maintenance costs
- Available as stand-alone or combo system
