

LCS evo combo

Laser cutting machine

Manufacturing flat and rotary tools
on minimum footprint

- Laser power from 1000 up to 2500 watts
- Working area flatbed 3020 x 1520 mm (118 x 59")
- Working area rotary 3000 mm (118"), diameters 174 to 800 mm (7 to 105")
- Fast engraving head **QUICKSCAN**
- Milling unit **QUICKMILL** with 6 positions tool changer
- Steel cutting option
- Nozzle Crash Protec system
- Outstanding laser beam quality due to fixed focus length
- Highest precision with synchronized mechanical linear units
- State of the art CNC technology with touch screen interface
